

Parent Child Program
(PC Program)
Nancy Campbell Collegiate Institute
London, Ontario
CANADA

Program Highlights:

This program is designed to engage younger children to learn English in a nurturing environment. Children, grades 1-8, will participate in school activities and learning that take place in our elementary school. One parent will accompany their child and spend several weeks at our school. The parents will have the opportunity to learn English as well with other adults or to experience the culture of London during the day while their child is in school.

The classroom setting will encourage immersion with only 2-3 students in a classroom along with the full-time NCCI students. These students will not attend core French class. They will attend one period of English as a Second Language (ESL) with an ESL teacher with the consent of the parent. Students in the short-term program will participate in speaking, writing, reading, listening, playing games in the classroom and socializing during outdoor activities. Each parent will receive a weekly report on his or her child's progress.

Optional activities include:

- ✓ Service projects in London
- ✓ Clubs (knitting and reading)
- ✓ Fundraising for schools in developing countries
- ✓ Musical performances in our fall or spring showcases

Benefits include:

- ✓ Learn to speak, read and write English through complete immersion at an early age
- ✓ Experience multiculturalism in Canada through our programming
- ✓ Make friends with English-speakers and maintain these friendships throughout their lives
- ✓ Facilitate the ease of learning in English in the future
- ✓ Participate with the whole school (JK-12) in our cooperative process of learning
- ✓ Take experiences home to share with their school
